Affinity™ Series Furnaces

Affinity™ Series YP9C Model
Up to 98% AFUE
There's no place like home. Or to be exact, there's no place like your home, the one spot that reflects your style and your personality. So it makes sense to select your furnace just as you would any other appliance, by demanding good looks and innovative design. It's possible with York® Affinity™ Series Furnaces—engineered and designed from the ground up to give you more comfort and options than ever before.

### Save with ENERGY STAR® products.
York® gas furnaces that meet or exceed U.S. Environmental Protection Agency energy efficiency standards of 90% AFUE qualify as an ENERGY STAR® product. That means when you compare standard models with ENERGY STAR® products, you'll find they provide a higher level of efficiency, cutting fuel consumption and cost.

### Feel good with the Good Housekeeping Seal.
York® products that bear the Good Housekeeping Seal give you the added assurance of product replacement or refund of the purchase price if the product proves to be defective within two years from the date sold by an authorized dealer.

### Less can be so much more.
This compact design has one of the smallest cabinets in the industry—just 33 inches high. When replacing older units, you can save time and money, since it easily fits in the existing space. Less space required outside, more heating capacity inside. Trust York to keep costs down and comfort up.

### ClimaTrak™ customizes your comfort.
Now you can enjoy custom comfort regardless of whether you live in a dry, temperate or humid climate. When ClimaTrak™ variable-speed air-handling technology is included in your system, your installer can set an operation cycle that works best in your climate.

### Modulates to meet your comfort level.
By evenly replacing the amount of heat leaving the home, a modulating furnace automatically adjusts itself in .50 or .65% increments to maintain the desired temperature setting within approximately half a degree of the thermostat set point.

### Affordable peace of mind.
Select York® systems include a 10-year limited warranty on parts as standard coverage (when you register qualifying products online within 90 days of installation, otherwise the parts warranty reverts to a 5-year parts warranty). See your York® Dealer for details.
Higher efficiency means higher savings. Affinity™ gas furnaces can provide double the efficiency of older models. To use the map and chart, determine the AFUE of your current system. Then using the map, find your zone. Cross-reference your zone and AFUE in the table to determine your approximate operating cost. Take the difference between your current cost and that of a new, more efficient Affinity™ System to learn your estimated annual savings.

*Annual Fuel Utilization Efficiency (AFUE) was established by the federal government to allow you to compare the efficiency of furnaces. The higher the AFUE percentage, the more efficient the furnace.
Complete your home comfort system by asking about ways to improve your indoor environment and protect your family’s health with our Total Comfort System™ approach to indoor air quality.

Make a smart choice: York®
Choosing the right contractor is the first step in selecting the best system for your home. Your York® Contractor is trained to give you professional home comfort services, including:

- An evaluation of factors such as your home’s size, age, number of rooms, climate characteristics and utility costs
- A system recommendation that fits your family’s comfort needs, your home, your lifestyle and your budget
- The assurance of proper installation and customer care, including warranties and maintenance options

Stay comfortable for years to come.
York is proud to offer the YorkCare™ Comfort Plan. It’s designed to maintain your system as well as your peace of mind. With YorkCare™ you get total protection that ensures your unit is effective and efficient for years to come.

What’s more, your York® Contractor offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare™ Comfort Plan. A little extra coverage is always a comforting idea.

Long story short—our history.
You’ve probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating and cooling systems in some of the world’s most famous structures, including the U.S. Capitol building, the Sydney Opera House, the entire U.S. Navy nuclear submarine fleet, and even venues such as your local mall and corner bank.

There’s a reason people trust us with the big jobs. We’ve been doing this a long time. Over 135 years, in fact. In that time, we developed the first successful room air conditioner and cooled the world’s first theater, hotel and office building. We’re constantly leading the industry in our design and our technology. And our commitment has earned our products the Good Housekeeping Seal of Approval. No matter what the scale, chances are we’ve developed an efficient, durable and effective solution for it.

You can depend on York to give you the choices you trust for comfortable performance all day long, year after year.
Want to know more? Contact your York® Contractor. They have over 135 years of innovation to tell you about.
