

---

Confort Expert Inc. is looking for an installer to join its dynamic installation team. We have been working in residential heating and air conditioning industry for 25 years.

This is a full-time position, 5 days a week.

Under the supervision of the installation director, your role would be to install the heating and air conditioning systems sold by Confort Expert.

The main tasks are:

- Perform the complete installation of the following devices (or part of this list):
  - Hot air furnaces (oil, electric, natural gas)
  - Hot water furnaces (oil, electric, natural gas)
  - Central heat pumps and air conditioners
  - Wall mounted air conditioners and heat pumps
  - Oil tanks
- Start up the installed devices
- Provide adequate customer service to answer any questions customers may have about installed equipment and how they function
- Make sure you comply with the applicable installation codes (eg B-149, B-139) and the company's standards.
- Make sheet metal transitions directly in the truck
- Dismantle old oil systems (e.g. furnaces, tanks, etc.)
- Install and replace accessories such as humidifiers, air purifiers and air filters
- Repair oil tanks (e.g. pipe modification, whistle replacement)
- Make plumbing modifications on hot water systems
- Recover electric or oil water heaters
- Complete trainings on new products
- Fill in installation reports
- Act responsibly with the company truck: inventory, driving and tool maintenance).

We are looking for people with the following skills:

- Physical work skills
- Autonomous
- Resourceful
- Team working skills
- Problem solving skills

In addition, the person will:

- Have a valid driver's license
- Be bilingual (an asset).
